HOW WOULD YOU LIKE TO PROGRESS THROUGH THE AGING PROCESS WITH EASE AND GRACE?

Are you *READY* to experience a wellness device that can energize every cell of the body and afford you an opportunity to live your life in a strong and healthy body once again?

This device is capable of being adjusted to meet the needs of each individual.

The product design originates from Germany and is manufactured by the Medi-Consult Company.

Daily use can be as little as 8 minutes in the morning and 16 minutes at night.

During that time the IMRS infuses every cell of the body with positive magnetic resonance, or energy, to begin changing the negative effects of daily exposure to electrical impulses from cell phone use, microwave ovens, flat screen tv's, computers, and all other electrical appliances.

The IMRS also helps to detox the body from harmful effects of pollution.
